

NOTE:
 The cord for this design is made using a $\frac{1}{4}$ " Clover Bias Tape Maker. The stitching sequence is like doing Celtic Knot work, the two separate cords weave over and under on another. In order to get the cord to the $\frac{1}{8}$ " shown stitch one folded edge down, then turn the unstitched fold under again toward the stitched side and sew down. Your cords will have a slightly raised effect and will turn those sharp turns without puckers.
